CLEANING - LINE CARD

CCRCo, LLC

The only truly ESD safe Conformal Coating Removal Workstations.

These fully self-contained, non-chemical bench top workstations are used worldwide in electronic repair when the removal of conformal coating of any type (acrylic, epoxy, parylene, silicone and urethane) is required. Because CCRCo is the only manufacturer supplying reusable cutting media, their systems have the lowest running cost.

Dosatron International S.A.S.

Water-powered proportional dosing pumps.

More than a technology, Dosatron is a solution for anyone who wants to accurately dose a liquid or soluble concentrated into water, acid for example, and prepare an 'aqueous solution', or even dose and mix other liquids..

www.dosatron.com

ENCON Evaporators, LLC

Drum & thermal evaporators.

ENCON Wastewater Evaporators are able to handle a wide range of waste streams simultaneously and are a great option for manufacturing processes that may expand or change in the future.
